

SET OF PLIERS, 4 PIECES, BI-MATERIAL HANDLES

Réf.: **0000970501**

Characteristics

Diagonal cutting nippers 160 mm // Combination pliers 180 mm // Half round nose nippers 200 mm // 1 water pump pliers with needle noses 240 mm. Ergonomics of the sleeve: a marked guard for improved support, bi-material polypropylene and neoprene for grip. The sleeves are resistant to products used in industry: hydrocarbons, acetone, chlorotene... Carpal tunnel syndrome is one of the major MSDs. The area is therefore not spatulated but the length of the sleeve is increased and the area of the carpal tunnel is simply avoided by a refinement of the clamp at the end. CUTTING All the cutting pliers have an offset axis for maximum leverage effect, known as **HIGH LEVERAGE**: the axis of the articulation is raised as close as possible to the cutting edge. Superior steel quality: Chrome Molybdenum, an alloy renowned for its high mechanical qualities, and in particular its toughness. Hardened cutting edges for longer life. The cutting pliers are designed to cut all types of wires and strips: strips, steel or nylon, Ertalon, Nylatron, copper wires, bronze, hard, semi-hard or even piano wire. **FINISH** Premium line clamps feature a premium chrome finish. Chrome plating increases surface hardness and protects against corrosion.
